Georgia Boot Introduces All-Purpose Eagle One Collection

NELSONVILLE, Ohio – Georgia Boot introduces the Eagle One collection, a do-everything work boot for spring 2015 built to deliver flexibility and durability on the job site.

“The Eagle One collection is typical of Georgia Boot in several ways,” said Jordan Gottke, marketing director for Georgia Boot. “The Eagle One boots utilize new technologies that make a difference on the job site while remaining a cost-effective choice for just about any profession.”

The Eagle One boots are made from full-grain leather and feature stitch-down construction for essential durability and flexibility. A new, wider Shovel Shank separates the Eagle One boots from conventional work boots by providing added stability and arch protection.

For all-day comfort, the boots include the AMP footbed and a soft EVA midsole. The boots also feature the Georgia Waterproof System and a moisture management interior lining. The rubber outsole is oil and slip resistant and brass hardware is used for durability in the lacing system.

The Eagle One boots are brown in color with six-inch, eight-inch and 11-inch Wellington styles available in both soft and composite toe. Suggested retail prices range from \$209.99-\$239.99.

For over 75 years, Georgia Boot® has been a leader in the work footwear market. Based in Nelsonville, Ohio, the company manufactures and markets quality work and outdoor footwear. The company's products are available in nearly 3,000 retail and catalog outlets. It is a division of Rocky Brands, a publicly traded company on NASDAQ® under the symbol: RCKY.
